## Self-Reliance Information

The purpose of becoming spiritually and temporally self-reliant is to become better able to serve the Lord and care for others (see [John 15:8](#)). The Savior invites us all to act, to stand independent, and to become as He is. He will help us. He has promised: “It is my purpose to provide for my saints, for all things are mine. But it must needs be done in mine own way” ([Doctrine and Covenants 104:15–16](#)). His way includes learning and living the principles of self-reliance—“the ability, commitment, and effort to provide the necessities of life for self and family” ([Providing in the Lord’s Way: Summary of a Leader’s Guide to Welfare](#) [2009]).

The [Self-Reliance](#) courses are found on [ChurchofJesusChrist.org](http://ChurchofJesusChrist.org) or by purchasing manuals at your local Distribution Center. To locate the courses online, follow the pages:

- [Personal Finances for Self-Reliance](#)
- [Education for Better Work for Self-Reliance](#)
- [Find a Better Job for Self-Reliance](#)

## Understanding the Self-Reliance Initiative for Stakes within the Africa West Area

- There are ten *managers* employed by the Church throughout the Africa West Area who have the responsibility to be a resource for the stakes and districts within their jurisdiction. (A list of these managers is found at the end of this section.)
- The *Stake or District President* designates one of his counselors to oversee welfare and self-reliance services. He may make the call himself or delegate to his counselor the responsibility to call a *Stake Self-Reliance Specialist*.
- A *Self-Reliance Committee\** is also formed and is composed of an assigned high councilor, the *Self-Reliance Specialist*, a member of the Stake Relief Society Presidency, the chairman of the Bishop's Welfare Council, and the Stake or District Presidency Counselor, who presides. Together they decide what the needs are and what self-reliance courses they will offer in their stake or district. The counselor will report to the president and the president will not have to deal directly with choosing and setting up courses, etc. \*For the Gathering Place, this will be done in correlation with the YSA Committee to follow the needs of the YSA.
- The *managers* employed by the Church are responsible to train each Stake or District *Self-Reliance Specialist*, who, in turn, works with the committee, and closely with the high councilor, in setting up *My Path* meetings and then, groups. The specialist assures that each group has a *Facilitator* who understands his role. He/she may be chosen from the group or elsewhere but will become part of the group because of the nature of his role, which is not an instructor. Groups should be small, no more than 12 people.
- *Action partners* are part of each course and often rotate. They do not need to be chosen beforehand and are members of the group.
- Members of each group will meet once a week for 1 ½-2 hours. *Group members* should understand at the outset that this is not their only obligation. For the course to be effective, they will need to complete other assignments during the week. For some of the courses, this will be a lot of work and require quite a bit of time.
- It is true that individuals and families have access to the materials online, but it is less effective because group members support each other, motivate each other, report to each other, and feel responsible for each other. They are bound together by common goals and needs, and it is very powerful.

- At the end of each course, the group participates in a group service project. When complete, the *Facilitator* will sign the certification for each person.

## Institute

The purpose of Institute is to help young adults understand and rely on the teachings and Atonement of Jesus Christ, qualify for the blessings of the temple, and prepare themselves, their families, and others for eternal life with their Father in Heaven.

“As we teach our young people to love the Savior Jesus Christ, they will become true disciples of the Master. This process will prepare them to become loyal, loving husbands and fathers, wives and mothers—leaders of eternal families. The temples will become a natural and important part of their lives. They will become missionaries, serving the Lord on missions as young adults and later as mature couples. ... As we strengthen our youth by pointing them to Christ, we also strengthen families and the Church.”

Dieter F. Uchtdorf, “A Teacher of God’s Children”

## Skills Development: Trade Education

### Vocational Education

Stakes can discuss who they know in their location with members or citizens who have Trade Skills that would be willing to come into the Gathering Place to provide presentations or demonstrations of their trade to local YSA. To avoid any employer-employee concerns, stake leaders should confirm in a prior written document with such member or citizen (signed by both parties) confirming that he/she is acting as an unpaid volunteer and any presentations or demonstrations should be provided free of charge. The area YSA missionaries can provide you with a suggested letter to use for this purpose. While such persons are permitted to hand out contact information and any prepared handouts, such items should not solicit business for the volunteer member or citizen, nor provide any statement suggesting that the Church is endorsing any offering, service and/or resource of any third party. Church facilities may also not be used for commercial purposes.

- The amounts in the following charts are estimates prepared through informal investigation and may be different in actuality.
- Outside the available Pathway program, neither the Church nor its affiliates offer certificated training programs in Africa.

## Human Rights

At the Geneva Office for Human Rights Education, we not only promote and protect the Universal Declaration of Human Rights but we also facilitate the teaching of these rights to children and youth. We want to make teaching human rights to children a clear and achievable activity through our free Colega Instruction courses and other online materials. The material contained in this website is focused on children and youth but can easily be adapted for YSA.

If your YSA are interested in this topic, please see the materials at: [GO-HRE](#) website.

Additional information on this subject can be found at: [Human Dignity African Manual](#)
